Alameda County

Grantee: City of Alameda

Amount Awarded: \$78,688.00

Grantee Contact: Kerry Parker

CalRecycle Grant manager: Lydia Hernandez

Project Summary: By extending beverage container collection across the City of Alameda's most heavily-trafficked, outdoor public areas, Alameda will collect an additional 286,000 beverage containers annually. The grant will enable the City to purchase 50 beverage container recycling receptacles for the busiest sections of the City's parks, business districts, and transit hubs. In so doing, every Alamedan and/or visitor to Alameda will have an easy opportunity to recycle a beverage container in the City's most trafficked outdoor public spaces.

Total Awarded for County:\$78,688.00

Fresno County

Grantee: Sanger Unified School District

Amount Awarded: \$83,202.00

Grantee Contact: Mr. Kevin Edwards

CalRecycle Grant manager: Shamila Tooker

Project Summary: The goal of this project is to build a sustainable beverage recycling program within Sanger USD. Funds will be used to purchase beverage recycling bins, receptacle liners, as well as collection materials to be used by staff at each of our twenty school sites. These items will work in conjunction with ongoing organizational education to be provided by both internal personnel, as well as our various recycling service providers.

Total Awarded for County:\$83,202.00

Los Angeles County

Grantee: Culver City Unified School District

Amount Awarded: \$232,058.00

Grantee Contact: Ms. Shea Cunningham

CalRecycle Grant manager: Tharon Wright

Project Summary: Our goal is to establish a uniform, two-bin waste collection system across the entire Culver City Unified School District, a district with ~6,700 students and ~900 staff. The new system will consist of blue recycling bins and black trash bins, side-by-side, everywhere to greatly enhance the recovery of beverage containers and other recyclable materials. We are requesting funding for the second phase of this project to include five new sites: middle school, high school, continuation high school, adult school and the maintenance and operations facility. This initiative is a crucial component of our overall goal to create a culture of sustainability at CCUSD.

Grantee: Loyola Marymount University

Amount Awarded: \$38,000.00

Grantee Contact: Nathaniel Miller

CalRecycle Grant manager: Tharon Wright

Project Summary: The LMU Housing Recycling Bin Project will replace outdated, free-standing solid waste containers with 25-30 recycling stations that are strategically-located in two campus housing zones, resulting in an increase in recycled CRV volume during the two-year grant period. An environmental education campaign coordinated by the Student Housing Office and Facilities Management will increase awareness about the Project, and encourage participation among the 3,200 students who live on campus each year.

Grantee: Marymount California University

Amount Awarded: \$9,697.00

Grantee Contact: Kathleen Talbot

CalRecycle Grant manager: Tharon Wright

Project Summary: Marymount California University (MCU) plans to install 8 BigBelly Solar trash and recycling duo stations across all campus sites, and expand beverage container and single-stream recycling education and training for approximately 2,000 students, employees, and other campus visitors.

Total Awarded for County:\$279,755.00

Mono County

Grantee: Sierra Conservation Project, Inc.

Amount Awarded: \$108,122.00

Grantee Contact: Mr. Brian Robinette

CalRecycle Grant manager: Rhoderick Estrada

Project Summary: This project is a partnership between the Sierra Conservation Project, Inc. and Town of Mammoth Lakes. The project will implement new and enhance existing beverage container recycling programs within the Town of Mammoth Lakes, providing convenient beverage container recycling opportunities at multifamily dwellings, private businesses and parks/recreational areas.

Total Awarded for County:\$108,122.00

Monterey County

Grantee: The Offset Project, Inc.

Amount Awarded: \$247,978.00

Grantee Contact: Mrs.Kristin Cushman

CalRecycle Grant manager: Tharon Wright

Project Summary: The purpose of the AB341 Beverage Container Collaboration is to increase Cash Redemption Value (CRV) diversion in the under privileged communities of Salinas Valley. The Collaboration will provide waste diversion infrastructure and outreach that will increase CRV beverage container recycling, reduce beverage container litter, and assist Salinas Valley in achieving state-mandated recycling ordinances and diversion goals. The stakeholders in this Collaboration represent 100% of the waste related agencies that serve the Salinas Valley.

Total Awarded for County:\$247,978.00

Placer County

Grantee: City of Roseville

Amount Awarded: \$75,859.00

Grantee Contact: Ms. Vicki Reid

CalRecycle Grant manager: Shamila Tooker

Project Summary: Project Summary and Statement of Use: The City of Roseville Environmental Utilities Department proposes to purchase 22 BigBelly Recyclers (solar powered bins dedicated to CRV-only collection) to allow for collection of CRV containers at city owned sports fields, park picnic areas, community and regional pools and at the city's Town Square. The proposed project would cover 2 regional parks (Mahany and Maidu), 4 community parks (Royer, Kaseburg, Hughes and Woodbridge), 1 regional pool (Roseville Aquatics Complex), 1 community pool (Mike Shellito Indoor Pool) and the city's Town Square project in Downtown Roseville. These venues host many special events/mobile food events/festivals with food, host regional swimming tournaments and swimming events/classes, host large picnics and large sporting events (little league, soccer, softball, football). On average annual usage of these facilities is as follows:

1. 240,00 annual users at the Roseville Aquatics Complex (RAC).
2. 30 swim meets, matches, etc at the RAC over a 45 day period.
3. 55,000 annual users at the Mike Shellito Indoor Pool.
4. 215 little league games played at Maidu Regional Park.
5. 30 softball and soccer tournaments played at Maidu Regional Park.
6. 705 little league games played at Mahany Regional Park.
7. 78 annual picnic rentals and special events at Royer Park.
8. 227 annual picnic area rentals City-wide.

As such, many of these events generate a considerable amount of CRV material due to the presence of food and drink. Currently, this CRV is mixed with other waste and sorted at a Materials Recovery Facility. This proposal would allow for source separation of CRV materials that are cleaner and have a higher recyclability as well as increasing the community's accessibility to recycling and raise awareness among the many thousands of people that use these recreation and special event facilities by allowing them to tangibly participate in the act of recycling.

Total Awarded for County:\$75,859.00

San Diego County

Grantee: Friends of Cardiff and Carlsbad State Beaches

Amount Awarded: \$211,509.00

Grantee Contact: Mr William Wisenor

CalRecycle Grant manager: Shamila Tooker

Project Summary: The San Diego North Sector Beaches and Campgrounds Recycle Project purpose is to bring the San Diego area North Sector of the State Parks Coast District into compliance with AB75 in diverting 50% of recyclable waste away from landfills and to assist with AB341's Mandatory Recycling Requirements. Specifically this project will implement a comprehensive collection program that will expand current infrastructure and incorporate effective components of sustainability such as education, outreach, signage, and bins.

Total Awarded for County:\$211,509.00

Stanislaus County

Grantee: Modesto City Schools

Amount Awarded: \$249,887.00

Grantee Contact: Ms. Julie Betschart

CalRecycle Grant manager: Rhoderick Estrada

Project Summary: Modesto City Schools (MCS) will establish a formal, uniform beverage container recycling program district-wide. This includes all school sites and supporting facilities. The target audience is 29,700 students in grades Pre-K through 12th grade, 3,000 staff, and thousands of community members who visit the district's facilities and schools daily. MCS will purchase and install 88 Max-R Recycling Bins to be distributed among the 7 high schools, 1 alternative education school, 4 junior high schools, 22 elementary schools, and district support facilities. The goals are to 1) increase the number of beverage containers captured at school facilities by having recycling containers placed at 100% of the school sites; 2) 100% of school sites will develop and submit a written site-specific recycling plan; and 3) 40% increase in the number of student-led environmental/recycling clubs district-wide.

Total Awarded for County:\$249,887.00

Tulare County

Grantee: City of Dinuba

Amount Awarded: \$165,000.00

Grantee Contact: Mr. Roy Ramirez

CalRecycle Grant manager: Tharon Wright

Project Summary: The City of Dinuba is proposing to enhance its current curbside recycling for residential, commercial and multi-family units by providing a 90-gallon blue recycling cart to over 5,000 customers. This will increase beverage container recycling as well as help the city meet its diversion rate and Calrecycle AB 341 goals.
By replacing its current 110-gallon split cart (55-gallon recyclables and 55-gallon waste) with 90-gallon blue recycling cart it will capture more beverage containers, reduce contamination, encourage more recycling and provide the infrastructure for years to come.

Total Awarded for County:\$165,000.00

Grant Count: 11	Grand Total for Selected Counties: \$1,500,000.00
